THE APPEAL of THE GOOD

Strange isn't it—and yet it isn't strange either, it's only natural, that we tire of the best.

Whether in wearing apparel or house furnishing, you know from experience that it is always the inferior we lose notion for—the good still holds us.

This is particularly true about diamonds; a second rate stone never yields full satisfaction; a "Ryrie" diamond is a joy forever.

The style of mounting may be changed at will but a "Ryrie" diamond is something one never tires of.

HINTS AND HELPS

TO FRESHMEN AND SENIORS.

All is not gold that glitters in a five-ten-fifteen-cent store.

When in doubt patronize the advertisers of the Dental Directory.

Five Essentials for Success.

1—Tact, Kindness, Consideration.
2—Enthusiasm.
3—Optimism.
4—Nerve.
5—Sincerity, Reliability.

Cheer Up.

When you're knocked it's for a reason, and they never knock a dead one.

Health.

It's the foundation of success. If you have it, keep it; if you haven't it, take good care of what you have. This is a great old world, full of fight and life, and we ought to esteem it a great compliment conferred upon us to have been granted the privilege of being born into it.

Don't worry—keep cool.

A little knowledge is a dangerous thing—to be without.

Good Advice.

My boy, beware of the baby stare,
Because if it's a bluff
She knows too much; and if it's not,
She doesn't know enough.

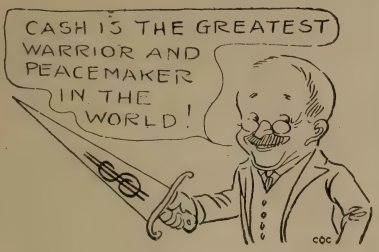
Persistence has turned many a defeat into victory.

To figure out in advance what a girl is going to do—it can't be done.

Money may be the root of all evil, but everybody seems to be pretty busy trying to get some of the root.

To Our Freshettes.

Make hay while the sun shines.



If you want to make peace between yourself and a critical world you can't do it by pinning ten dollar bills to a shabby suit.

It isn't the cash itself that is going to impress the folks whose friendship you prize.

Dress yourself in a manner that will prove your politeness and give your vigor a chance to whip into shape your well-laid plans.

HAD YOU THOUGHT OF THIS?

Three things says an eminetly successful dentist, are essential to the professional men.

1. Constant study to keep abreast of the times.
2. Bright, fresh, up to-date labor-saving equipment for the office and laboratory.
3. AN EFFICIENT SYSTEM OF ACCOUNTS.

No matter how successful you may become in your chosen profession as regards your work, you cannot hope to achieve financial success without a proper system of keeping track of service rendered and payments received.

The "Office Specialty" Record Keeping System for the dentist is simple, fast, and economical—and is at the same time accurate and complete.

Write for free booklet "Time Saving Record Keeping for the Dentist."

BECKY SAYS
it's a wonderful bridge

But all bridges look alike to Becky. She just puts her trust in you.

And whom do you trust?

One man you *must* trust is the one who makes the cement upon which you depend not only to hold the bridge firmly but to keep the abutments intact against seeping saliva.

All cements appear very much alike on the slab. No ordinary test can tell you what kind of *dentistry* they are good for.

Finding *that* out with certainty requires extremely accurate scientific work.

You can trust CAULK CEMENT. Capable scientists make sure it is right before you get it.

LOTS OF COOKS

Know *what* makes soup.

Only great chefs know *how* to make it.

That difference between *what* and *how* is wide enough to hold some big failures.

JUST SO in making cement. Between the mere formula at the beginning and the completed mix at the end there are a hundred important steps of manufacture, and every step is *slippery* with possible failure—failure meaning, of course, that the cement will *not* do what you expect it to do for your patient.

Caulk Zinc Cements are the result of forty-two years' manufacturing experience, plus scientific and clinical study

Apothesine

A new local anesthetic of special merit.

It is not a derivative of cocaine; it do s not induce "habit" formation.

It is far less toxic than cocaine and mosi of the other synthetic anesthetics.

It dissolves readily in water or alcohol.

It forms neutral solutions (not acids).

It may be sterilized by boiling.

It may be combined with any of the usual synergists.

Apothesine is a product of our research laboratory.

Listed in forms of tablets and solution obtainable through your regular source o supply.

Things to Wear

For a smart cravat or scarf—a dressy shirt, collar or necktie—socks that wear or shoes that fit—in fact for any article of young men's apparel — The SIMPSON MEN'S SHOP is a recognized authority on what's what for the new season.

Charge Your Laundry

Hundreds of young men would like to send their weekly parcel to a first class laundry where *repairs to underwear, socks, etc.*, are done but have been unable to do so owing to the fact that they are not in to pay for it when the delivery man calls.

For these we have arranged to open convenience accounts statements being issued monthly.

Phone Main 4821 and have the wagon call.

The Dominion Dental Council.

Each province has control of its own educational affairs. So upon graduating from the R.C.D.S. a graduate is only licensed to practice in Ontario. However, upon trying the Dominion Dental Council examinations, and if he be successful in trying them, he becomes entitled to practice in all the provinces with the exception of Quebec, British Columbia recently joining the D.D.C.

For more detailed information regarding the Dominion Dental Council, a card to Dr. Cowan, Regina, Sask., would bring it.
